Medical Spa

Health is the key .....

Grand Hotel Pomorie has always been associated with first-class medical and spa services. The direct access to the healing mud from the Pomorie Salt Lake, the lye treatments and the pool with salt mineral water have long been known to our guests and have become our trademark. In 2020, we made a complete renovation of our medical spa center. We have invested a lot of energy, money and love to turn it into a place that impresses with design and gives the sense of health, harmony and relaxation to our guests.

Qualified medical staff

Salt mineral water indoor pool

The indoor Salt Mineral water swimming pool, using water from the Pomorie spring, is unique for the country. The water springs from over 70 meters beneath the surface, which guarantees a high level of purity. It is several times saltier than seawater, and possesses strong anti-inflammatory and pain relieving effects. The water improves the body metabolism. It is appropriate for treating knee pains, coxofemoral joints, back and spinal pains.

Please be advised that due to the fact that no chemicals are used to clean the salt mineral pool, monthly maintenance of the facilities related to its operation is required.

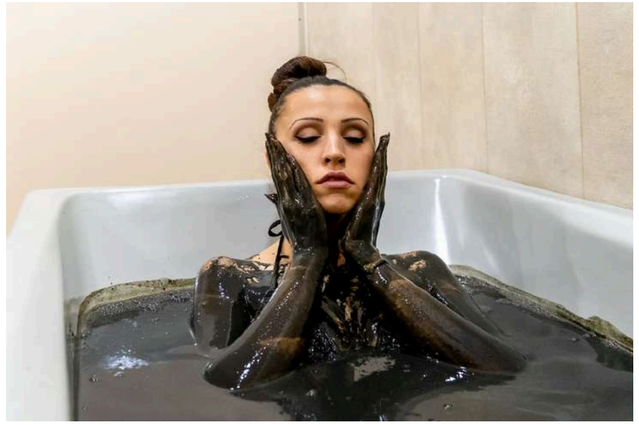

Mud and lye treatment

The mud therapies offered in GRAND HOTEL POMORIE possess strong anti-inflammatory and pain-relieving properties, at the same time improving the metabolism. The lime is suitable for treating knee pains, coxofemoral joints, as well as back and spinal pains.
The mud treatment center offers 18 individual compartments for mud procedures. The mud is delivered to the mud treatment department directly from the Pomorie salt lake, using a specially designed system for transferring mud. This guarantees the maximum healing effect on the human body because the mud from the Pomorie Salt Lake loses up to 50% of its healing power up to 24 hours after being taken out of the lake or having contact with oxygen.
Compresses with lye posse a distinctive anti-inflammatory, pain relieving effect, especially in the back area, the knees, the shoulder joints and the hands. In order to successfully apply those treatments, GRAND HOTEL POMORIE is equipped with the latest in the world of technology.

Meetings and events

We build partnerships and mutual trust ....

Grand Hotel Pomorie has many years of experience and traditions in organizing corporate meetings, events and conferences. As a result, we have built excellent partnerships with a number of corporate partners and companies specializing in event organization and conference tourism. Trust is earned through hard work, good organization, mutual compromises and a lot of professionalism.

All our corporate partners enjoy negotiated accommodation prices for all their employees and guests for reservations made with the corporate code of the partner. For each corporate event, we are ready to prepare an individual offer with competitive prices, fully compliant with the requirements and the expectations of the organizer.

Restaurants and bars

Tasty and healthy ....

Our Chef and the entire team of the Food and Beverage Department will invest a lot of effort and professional experience to make your event memorable and its organization smooth and trouble-free. As a hotel focused on the health of our guests, we can offer a wide variety of classic, Mediterranean and healthy drinks and meals with recipes inspired by new trends in nutrition and reenvented through the experience and knowledge of our Chef. After its renovation in 2020, the Classic restaurant has the "Show Cooking" concept implemented, so that the food is prepared just n front of each guest and by his own preferences. In the other halls we offer an attractive a la carte or set menu.

We will earn your trust and you will be happy that you chose to trust us!
